

The pottery finds were examined by the Sussex Archeological Society and the reports are below :

SUSS-934F31

Object Type: VESSEL

A fragment from a medieval jug handle. Weighing 32g.

Findspot

OS Grid ref: **TQ152259**, Parish: **SOUTHWATER**, County: **WEST SUSSEX**

Dates

EARLY MEDIEVAL (Certain), Circa 1250 AD - Circa 1500 AD

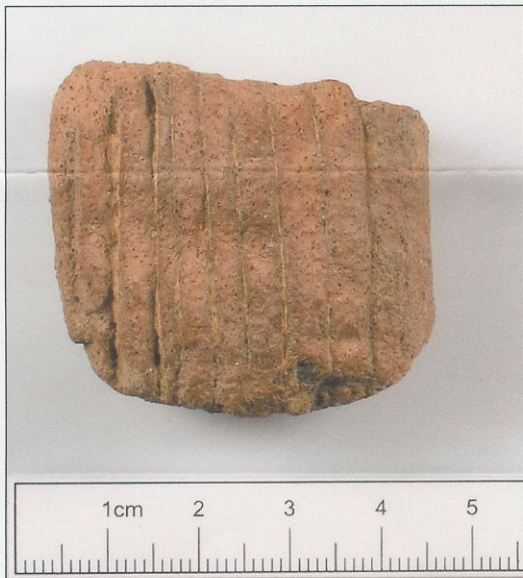

Further information

Method of Manufacture:	Hand made	Length:	not defined	Quantity:	1
Material:	Ceramic	Width:	not defined	Preservation:	
Decoration:		Thickness:	not defined	Completeness:	Fragment
Surface Treatment:		Diameter:	not defined	Evidence of reuse:	
Weight:	32 grams				

Discovery Information

Found by: [Mrs Joan Francis](#), Before 02.2007

Method of Discovery: Other chance find

SUSS-934010

Object Type: VESSEL

A large, glazed base sherd of German stoneware. Weighing 79g. The sherd dates from the 16th - 17th century.

Findspot

OS Grid ref: TQ152259, Parish: SOUTHWATER, County: WEST SUSSEX

Dates

EARLY POST MEDIEVAL (Certain), Circa 1500 AD - Circa 1700 AD

Further information

Method of Manufacture:	Wheel made	Length:	not defined	Quantity:	1
Material:	Ceramic	Width:	not defined	Preservation:	
Decoration:		Thickness:	not defined	Completeness:	Fragment
Surface Treatment:	Glazed	Diameter:	not defined	Evidence of reuse:	
Weight:	79 grams				

Discovery Information

Found by: Mrs Joan Francis, Before 02.2007

Method of Discovery: Other chance find

SUSS-9357A1

Object Type: VESSEL

Three body sherds of post-medieval pottery.

- 1) A small sherd of glazed stoneware, 16th - 17th century. Weight 8g.
- 2) A small sherd of glazed stoneware, 16th - 17th century. Weight 7g.
- 3) A small sherd of unglazed greyware, possibly medieval or post-medieval in date. Weight 10g.

Findspot

OS Grid ref: TQ152259, Parish: SOUTHWATER, County: WEST SUSSEX

Dates

EARLY POST MEDIEVAL (Certain), Circa 1500 AD - Circa 1700 AD

Further information

Method of Manufacture:	Wheel made	Length:	not defined	Quantity:	3
Material:	Ceramic	Width:	not defined	Preservation:	
Decoration:		Thickness:	not defined	Completeness:	Fragment
Surface Treatment:	Glazed	Diameter:	not defined	Evidence of reuse:	

Discovery Information

Found by: Mrs Joan Francis, Before 02.2007

Method of Discovery: Other chance find

SUSS-936BB6

Object
Type: CLAY PIPE (SMOKING)

A fragment from a broken bowl from a clay pipe. Weighing 3g.
The remains of the stem features the initial letter C, which would suggest that this is a makers mark.

Findspot

OS Grid ref: [TQ152259](#), Parish: [SOUTHWATER](#), County: [WEST SUSSEX](#)

Dates

LATE POST MEDIEVAL (Certain), Circa 1750 AD - Circa 1850 AD

Further information

Method of Manufacture:	Moulded	Length:	not defined	Quantity:	1
Material:	Pipe Clay	Width:	not defined	Preservation:	
Decoration:		Thickness:	not defined	Completeness:	Fragment
Surface Treatment:		Diameter:	not defined	Evidence of reuse:	
Weight:	3 grams				

Discovery Information

Found by: [Mrs Joan Francis](#), Before 02.2007

Method of Discovery: Other chance find

SUSS-937927

Object
Type: CLAY PIPE (SMOKING)

A fragment from a broken stem from a clay pipe. Weighing 3g.
The remains of the stem are undecorated.

Findspot
